Subject: CARB-EPA Enforcement Coordination
Attachments: Draft Potential CARB - EPA Collaboration V04.docx

Claire,

I know EPA is having a conversation with CalEPA tomorrow regarding enforcement coordination. I've pulled together a super-drafty document that describes what we're trying to do, and where we are likely to work.

I think this will be useful for tomorrow's discussion that I will not be in, and also we should figure out how to have a more focused discussion to narrow down which facilities / projects we will work on jointly. I'm happy to discuss all of this, and am open to ideas not on the list.

I'm also working to schedule community meetings in Brawley, Coachella, Stockton, and Bayview Hunters Point. As I get closer on that I'll let both of you know.

Thanks,

Todd Sax
